Second maintenance work

B. Replanting

Distribution of saplings based on tree planting data

Inspection of the replaced sapling by Sabah Forestry Officer Mr Jumadil

C. Destroyed plants and others

Broken sapling caused by wildlife

Broken sapling caused by wildlife

Destroyed branch on a matured tree

Destroyed matured tree

Inspection on **Wild Durian** sapling that was destroyed by wildlife. (Inspection by Sabah Forestry officer Mr Jumadil)

D. Verification and suggestion

Identification of planted trees will be inspected and updated by Sabah Forestry officers from time to time.

Verification by Sabah Forestry Officer Mr Dominic

Verification and tree identification by Sabah Forestry Officer Mr Jumadil

Assistant to District Forestry Officer – Mr Jackly recommended to plant the replaced sapling 2m from originally planted tree. The example as above as demonstrated by Mr Dominic and Mr Jumandil on site. This is recommended to avoid possible sapling damage by wildlife (in case if the original planted tree) was in the way of the animal path.

E. Information on replacement

On the second round of maintenance conducted by Kontraktor Faja between 1 to 8 Oct 2020, there were a few saplings that were found destroyed by wildlife such as wild boar and macaques. Total saplings that needed to be replaced are as follow:

Compartment 111/Block 9 = **6 trees** (Line 34-49)

Compartment 111/Block 9 = **4 trees** (Line 50-65)

Compartment 109/Block 37 = **16 trees** (Line 01-24)

Compartment 109/Block 39 = **16 trees** (Line 50-65)

Total = 42 trees

Thank you.

Yours Sincerely,

(KONTRAKTOR FAJAR)
